

WHO AM I?

Color me in to learn my **field marks**! Field marks are the patterns that make me special and help you spot me in the wild.

Instructions: Follow this code to color in the bird, or go wild and create your own field marks by choosing colors you want!

1. Black
2. White
3. Red
4. Brown

Name that bird!

Can you identify this bird? Like in hangman, for each wrong guess, trace in a part of the body of the body in the outline above.

_____ N _____

_____ C _____

Clue: You might hear me in the morning making a drilling sound that sounds like drumming. Birds in my family make this sound to let other birds of my kind know that a tree is my home, or *territory*.
