

How to make a collage poster

You need: Colourful pages torn from old newspapers and magazines (especially the hornbill colours of red, white and blue and some green for the veld and blue for the sky).

Step 1 – Print the design for the hornbill on an A3 page or draw your own – walking or flying.

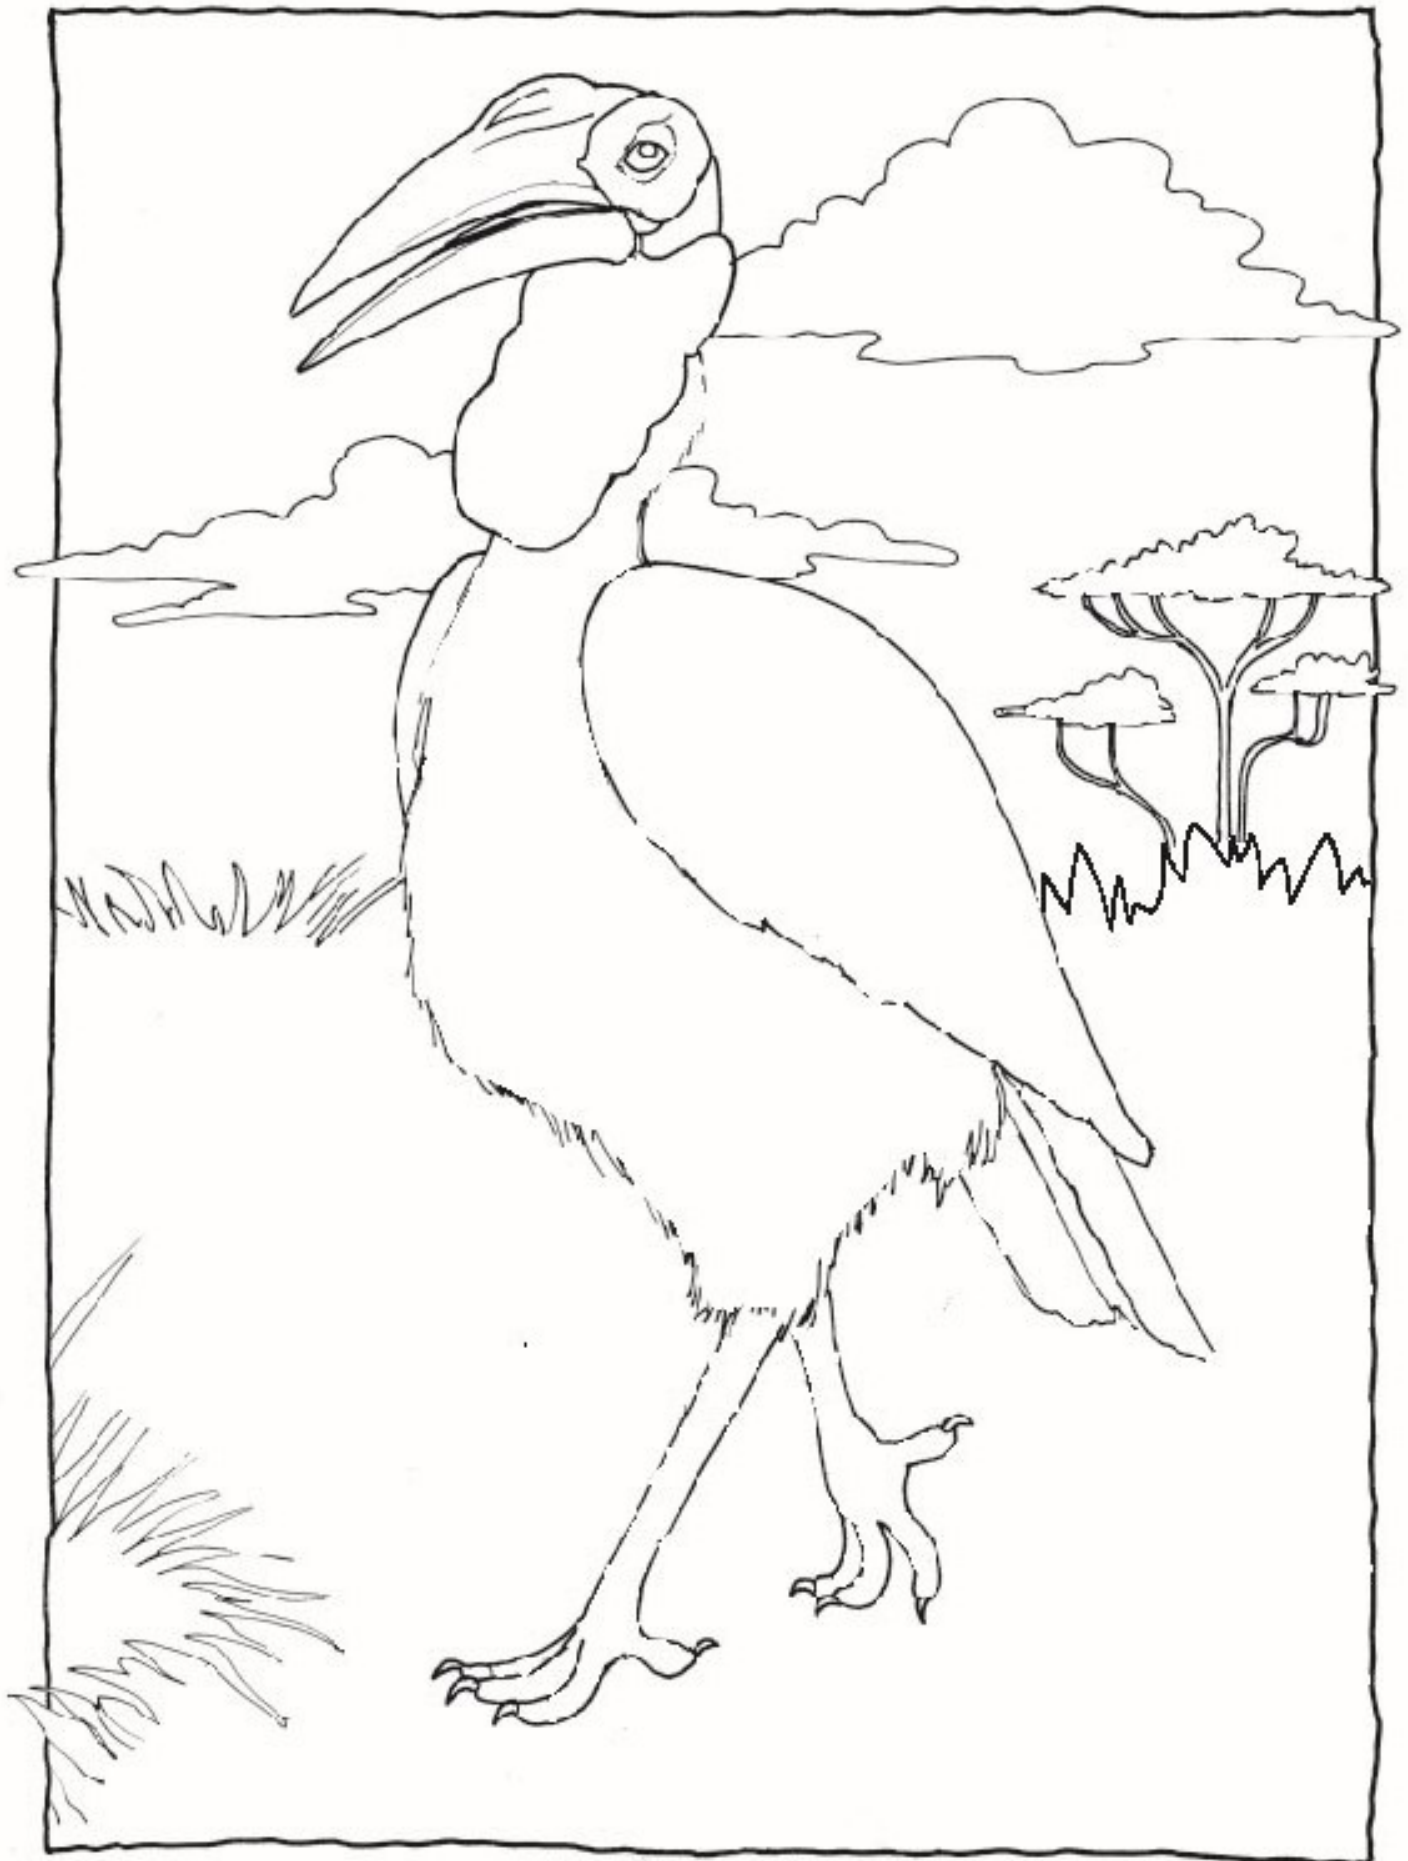

Step 2 – Collect old magazines and newspapers and cut or tear out the colours you need: match the hornbill and bush colours or go wild with multi-coloured hornbills.

Step 3 – Glue the coloured pieces of paper to the print out of the hornbill (use a photo as reference).

Step 4 – Display your beautiful work for all to see.
