

Tracy Aviary Outreach Programs

Standard Alignment 2020-2021

Each Tracy Aviary outreach program has been linked to Utah SEEd standards. This guide shows these links by grade, standard, and objective. (e.g. “2.1” in the 3rd grade column refers to 3rd Grade SEEd standard 2, objective 1.)

These are just *some* of the obvious connections to the standards. Each program is designed to be interdisciplinary and therefore connects to many other subject standards.

Programs can be modified to meet your specific classroom needs and other connections can be made. Customized content must be requested at least two weeks prior to your confirmed outreach date. Email Kylie Jones-Greenwood, Community & Outreach Programs Coordinator, for more information: kyliej@tracyaviary.org

Note: The Outdoor Observation program Nature Story Time is not included in the tables below but is suitable for preK-2nd grade students. Standard alignment is dependent upon the topic you choose for the program. A standard alignment table will be included with your program confirmation information if you choose to book this program.
